WORK EXPERIENCE

Nets-International - Senior Front End Developer

Sept 2023 - Present

- Developed Cisco project topologies for network visualization and configuration.
- Designed and implemented generative AI components, including chatbots, enhancing interactivity and user experience across projects.
- Designed and implemented feature-rich tables with advanced functionalities.
- Conducted client meetings to understand requirements and translate their ideas into frontend solutions efficiently.
- Engaged in Agile ceremonies (sprint planning, stand-ups, retrospectives) to drive project progress and team cohesion.
- Worked with QA team to resolve frontend bugs, ensuring high-quality software delivery.

Zimo Group - NextJS Developer (Remote)

April 2023 - Aug 2023

- Participated in project planning and coordination.
- Ensured responsive design for all devices.
- API integration
- Reviewed and guided junior developers' code, ensuring adherence to best practices and fostering their professional development.

PenAndWeb - ReactJS

November 2021 - March 2023

- Integrated APIs (Chart.js, Dropzone, Editor.js) for dynamic data visualization and interactive content creation.
- Implemented secure user authentication (signup, login, OAuth integration) for seamless user interactions.
- Developed user-friendly ticketing and booking solutions, streamlining reservation processes.

PROJECTS

Data centre sustainability

Confidential

- Implemented user-friendly dashboard and visualization tools to monitor and control power consumption metrics.
- Implemented interactive charts and graphs to provide insights into energy usage patterns and trends.
- Utilized React.js with echarts and Chart.js to visualize power consumption data effectively.

BGP | Traffic Optimizer

Confidential

- Designed and developed a user-centric interface for effortless navigation and optimal user experiences.
- Developed network topology using React-flow library.
- Designed and implemented feature-rich tables with advanced functionalities.
- Created visualization tools, utilizing echarts and Chart.js, to depict BGP routing and traffic patterns.

Zimo Pro | Real Estate

Confidential

- Bridged global users, facilitating crucial property transactions worldwide.
- Combined automation and curation for top-quality listings across the globe.
- Integrated frontend and backend via Next.js, ensuring a seamless user journey.
- Merged automation efficiency with curated user experiences.

TECHNICAL SKILLS – FRONTEND

JavaScript (ES6+), TypeScript, ReactJS, NextJS, HTML5, CSS3, Bootstrap, Material UI, Tailwind CSS, Ant Design.

LANGUAGES

English, Urdu, Pashto

EDUCATION

BSSE @ InstilInstitute of Management & Sciences

July 2017 - Aug 2021
